Summary

Full-stack developer in Bursa, Türkiye. Since April 2024 I've built HR products at ThinkCut: reusable UI components, API integrations and server-rendered pages tuned for speed and search. Before that I shipped client projects at Dijital Sahne with Node.js, TypeScript and PostgreSQL. I work in React, Next.js, NestJS, PostgreSQL, Redis and Docker.

Experience

Bursa, Türkiye

ThinkCut

Full-Stack Developer

- Delivered HR-focused web features end-to-end: reusable UI components, API integrations, and SSR to improve perceived performance and SEO.
- Collaborated with designers in Figma; wrote maintainable, typed code (TypeScript) and clean API contracts via Swagger.

Mar 2024 to May 2024
Remote

Pick a Seat

Side project, Biletinial

- Contributed to Pick a Seat — a ticketing and seat-reservation product spun out of Biletinial.
- Built responsive interfaces, integrated APIs, and refined UX for scalable, reliable online booking.
